## LAND APPRAISAL REPORT

# **OF THE LAND** LOCATED AT

Lot 3 Blk A PI 852 1872 City of Cold lake, AB

### **PREPARED FOR**

City of Cold Lake

# PREPARED BY

Colleen Hoolahan DAR/Certified Appraisal Reviewer

Client Reference No.: File No.: 20-033 January 24, 2020 City of Cold Lake The purpose of this appraisal and appraisal report is to ascertain and report the market value, as defined in this appraisal report, of the subject land, located at Lot 3 Blk A Pl 852 1872, Cold Lake, Alberta in fee simple, for the function of marketing and re-sale. Fee simple is an absolute fee, a fee without limitations to any particular class of heirs or restrictions, but subject to the limitations of eminent domain, escheat, police power, and taxation. It is an inheritable estate. The appraiser has personally viewed the subject property on January 24, 2020 and has gathered and analyzed all the data obtained from the local real estate board, the Multiple Listing Service, the public record, and the appraiser's own files. The appraiser has omitted the cost approach and income approach analysis as they are considered inapplicable and inappropriate for this type of appraisal assignment. The appraiser has further completed a sales comparison approach analysis. This appraisal and appraisal report have been completed in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP). It is the opinion of the appraiser that the market value of the subject property as of January 24, 2020, is: Four Hundred Twelve Thousand Dollars \$412,000 THIS REPORT CONTAINS AND IS SUBJECT TO specific terminology descriptions, conditions, and special limitations which affect the stated opinion of market value, the use, and the intended user of the report. Please carefully read, and pay particular attention to all of these descriptions, conditions, and special limitations. **DAR/Certified Appraisal Reviewer** Form produced using ACI software, 800.234.8727 www.aciweb.com CNALOT12152003

### **GENERAL COMMENTS**

For the purpose of this appraisal report, the highest and best use is defined as that legally permitted use for which there is a demand, and is most likely to produce the greatest net return, tangible or intangible, to the subject property, while utilizing the property as a whole. The subject property is Vacant Land R3 - Medium Density Res (Row House) and it is the opinion of the appraiser that this activity constitutes the highest and best use.

The income approach to value was not considered as no properties similar to the subject, in the subject market area, were predominately leased at the time of sale. It is therefore, impossible to determine a legitimate rent multiplier figure necessary in calculating a valid income approach value.

The appraiser assumes that all information describing the insulation, and the water and sewer systems supplied by the owner of other sources, is correct. This information was not verified by the appraiser.

### Cost Data (If Applicable)

The cost approach calculations were based on current information published by the Marshall & Swift Company and were adjusted for geographical location, climatic conditions, seismic zones, and wind factors. Physical depreciation was calculated using the modified effective age/life method, utilizing **Marshall & Swift Cost Manual** as a base. The accrued depreciation includes any applicable functional and external obsolescence. The land value was determined from an analysis of the most recent sales of similar but undeveloped land in the subject market area, and by the abstraction method utilizing the comparables incorporated in the sales comparison analysis.

### Sales Comparison Data

APPRAISER:

Name: Colleen Hoolahan

Date Signed: **01/28/2020** 

Designation: DAR/Certified Appraisal Reviewer

Signature:

The date of sale figures reflect the actual contract date of each comparable. The condition adjustment reflects both the incurable and the curable physical depreciation and was calculated by a comparison of the effective age of the subject's improvements to that of the respective comparable. The difference of the respective depreciation rates was then applied to the abstracted value of the improvements only. The gross living area adjustments reflect both size and room differences. These adjustments have been calculated by abstracting from the sales price of each comparable, the market value of all items which do not contribute to the actual Gross Living Area of the house itself. The residual was then divided by the size of the respective house to arrive at an average market value per square foot or meter. The values thus derived from each of the comparables were correlated with the depreciated cost of the subject to arrive at the actual adjustment rate utilized.

SPECIAL LIMITATIONS
SFECIAL LIMITATIONS
This APPRAISAL REPORT has been prepared for the sole and exclusive use and benefit of City of Cold Lake
(hereinafter referred to as the client). Any use of this report by anyone other than the client or for any purpose or function other than the original intent, invalidates the findings and voids all results and or conclusions.
All analysis, opinions, and conclusions were developed, and this appraisal report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) and the code of ethics of the Canadian National Association of Real Estate Appraisers.
It is assumed that the utilization of land and any improvements thereon, are within the boundaries of the property lines of the described property and that there is no encroachment or trespass, unless otherwise stated in the appraisal report.
It is assumed that the subject property is in full compliance with all applicable Federal, State/Provincial, and local environmental regulations and laws unless otherwise stated in the appraisal report.
It is assumed that all required licenses, consents, or any required legislative or administrative authority from any local, State/Provincial, Federal, or private entity or organization, have been acquired and or renewed for any use upon which the value opinion in the appraisal report is based.
It is assumed that any lease encumbrances pertaining to the subject property are legally binding contracts between the lessee and the lessor and that all information transmitted to the appraiser concerning these lease contracts is accurate and correct. Although this appraisal report may include information concerning the physical improvements being appraised, including their adequacy and or condition, it should be understood that this information is provided only for use as a general guide in the valuation of the subject property and is not to be construed as a complete or detailed physical report. The observed condition of the roof, exterior walls, foundation, interior walls, floors, heating system, plumbing, insulation, electrical system, and any other of the mechanical system or physical components of the improvements is based on a casual viewing only. <b>No detailed inspection was made.</b> The improvements were not checked for current building code violations unless otherwise noted in the appraisal report. If such an inspection is required, the client is advised to retain the services of an expert in this field.
Comments:  This appraisal and appraisal report was completed by a member in good standing with CNAREA and licensed with RECA.

#### SCOPE OF THE APPRAISAL

The Scope of the Appraisal contains the necessary research and analysis to prepare a report in accordance with its intended use. The following are comments which describe the extent of the procedures used in the collection, confirmation and reporting of the information involved in preparing this report.

Collection and confirmation of data consisted of the following:

- 1. A personal site viewing was performed on January 24, 2020 by Colleen Hoolahan. The appraisal and appraisal report were completed by Colleen Hoolahan.
- 2. Site area taken from the Title Search.
- 3. Property assessment and taxes, and land use classification are sourced from the corresponding municipality/town (jurisdiction GIS system).
- 4. Supportive market information regarding comparable properties is obtained through the Edmonton Real Estate Board and Land Sales from the Northern Alberta Land Data System. Comparable market information was confirmed with either the listing selling realtor or other participants who are knowledgeable of the transaction details.
- 5. The market value includes the 5 % GST if applicable.
- 6. The property rights appraised are those of the owners in the Fee Simple Estate and the effective date of the Appraisal is January 24, 2020.
- 7. Occupancy and site history of the subject is described below.

#### OCCUPANCY AND SITE HISTORY

Subject property is vacant land (R3).

#### REASONABLE EXPOSURE TIME

An estimate of market value is related to the concept of reasonable exposure time. Exposure time is the property's estimated marketing time prior to a hypothetical sale at market value on the effective date of appraisal. It is a retrospective function of asking price, property type, and past market conditions; and encompasses not only adequate, sufficient and reasonable time but also adequate, sufficient and reasonable effort. Reasonable exposure time is one of the necessary elements in the most market value definition, although it is not intended to be a prediction of a specific date of sale as it may be expressed as a range.

In appraisal theory and practice, there is a distinction relating to perspective between exposure time and marketing time; exposure time is presumed to precede the effective date of appraisal whereas marketing time is presumed to succeed the effective date. Marketing time is a prospective function of asking price, property type and anticipated market conditions.

The subject's market value estimate is based on a reasonable exposure time of 180 + days at an asking price of 5 % greater than expected value. The market value conclusion should not be viewed as a full detailed narrative report. The contents are concise and briefly descriptive. The market value is based upon a review of available sales data, primarily the data listed on a "Multiple Listing Service" and private sales from office records. The MLS sales are not normally inspected nor verified unless there is a reason to doubt their accuracy. The sales data is then adjusted by way of the application of appraisal theory and experience. It is often necessary to use adjustments that are subjective to derive the current market value of the subject. In most instances the comparables were not inspected on the interior.

These 2 lots have great highway exposure and measure 133'x150' with a paved lane way too. Great building site for your business. The property is zone RMX which is commercial/residential mixed use. This allows for many uses and allows for residents in the building. The site was environmentally contaminated however, it was cleaned last year and now ready for your businesses new building.
