

# Environmental Family Perfect Use By Function

The workhorse for all your waste, recycling, and organics collection needs. IPL's manufacturing process uses high density polyethylene (HDPE) that yields precise design and consistent thicknesses

For semi-automated Type B American grips, Type C European grips and Type G fully automated collection  
Ideal for Waste, Recycling & Organic collection

Also ideal for Residential, Commercial, Industrial and Institutional environments

## Features & Benefits

- IPL's injection process uses high density polyethylene (HDPE) that yields precise design and consistent thicknesses
- UV stabilized against long-term effects of the sun
- 100% recyclable
- Unibody design requires no bolts or holes that could potentially leak
- Advanced lid hinge design offers a tight seal that keeps pests and weather out, and trash in
- Multilingual user instructions on lid
- Large imprinting area
- Sequential serial numbers
- Ergonomic design allows for easy handling
- Snap on wheels without tools
- Solid steel axle, yellow zinc-plated against corrosion
- Durable wear strips will protect the bottom of the bin
- Rotating sealed metal catch bar
- Nestable design with catch bar for AMC
- 270 degrees lid opening

Hi Chris,

Here is the price breakdown, my apologies. There is a significant price difference the more you order. IPL will only ship for you guys specifically the below but only because they have the IML and the other guys don't so they are bound to do so. Let us know your thoughts here, the quotes do not include freight due to the lead time we will quote it closer to the production of the carts.

¼ load (2 skus) \$95.74  
½ load (2 skus) \$84.55  
Full load (2 skus) \$80.20
